ADAMSKI TO GIVE LECTURE TO UFO STUDY CLUB: On November 30, Sunday, at Drexel Hall, George Adamski, author of two of the most famous books on UFO'S and space people, will speak before the UFO Study Club at Drexel Hall.

Mr. Adamski was the first to receive world wide recognition when he announced that he had contacted beings from other planets and had been aboard their ships. Mr. Adamski, in his works, describes his first contact with the beings and the unique way in which they presented themselves. His book states that he was taken up in one of their Scout-Craft and was taken to a mother ship hovering far above the Earth's surface.

In a later trip he was taken near the moon and could see it's surface quite clearly. He also was taken near to the surface of the planet Venus and saw much activity on this planet. Although others now claim to have made similar trips, Mr. Adamski's adventures were the first to receive world wide publication.

Mr. Adamski, in his years of Saucer research, has taken many interesting photographs of operational craft. Mr. Adamski has much to offer all those interested in any way with Saucer phenomena. Call your friends! Meet with us at Drexel Hall, Baltimore and Linwood. Donation fee, EVERYONE, \$1.50. Sunday, November 30, 2:30 P.M.

GEORGE VANTASSEL: Mr. George W. VanTassel gave a very interesting and worth while talk before the UFO Study Club on November 13th. He told of the work being carried on at his place in Yucca Valley, California.
